THE TELEPHONE CONSUMER PROTECTION ACT

17. The TCPA, enacted in 1991, amended the Communications Act of 1934 by adding 47 U.S.C. § 227, which requires the Federal Communications Commission ("FCC") to

... initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. . . . The regulations required by [the TCPA] may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and part thereof available for purchase. If the Commission determines to require such a database, such regulations shall- ... (F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database

47 U.S.C. § 227(c)(1) and (c)(3).

18. In 1992, the FCC promulgated rules pursuant to the TCPA.
19. On June 26, 2003, the FCC revised its rules and promulgated new rules pursuant to the TCPA. These new rules established a "do not call" registry (the "National Do Not Call Registry" or "Registry") of consumers who do not wish to receive certain types of telemarketing calls. Consumers can register their telephone numbers on the Registry without charge either through a toll-free telephone call or over the Internet at www.donotcall.gov.
20. Sellers, telemarketers, and other permitted organizations can access the Registry over the Internet at telemarketing.donotcall.gov to download the registered numbers.
21. A relevant FCC Do-Not-Call Rule, 47 C.F.R. § 64.1200(c), provides in part: "(c) No person or entity shall initiate any telephone solicitation [as defined in paragraph (f)(14) of this section] to ... (2) A residential telephone subscriber who has registered his or her telephone number on the national do-not-call registry of persons who do not wish to receive telephone solicitations that is maintained by the Federal Government."
22. The TCPA itself and another relevant FCC Rule, 47 U.S.C. § 227(a)(4) and 47 C.F.R. § 64.1200(f)(14), respectively, provide in part: "The term telephone solicitation means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person ..."
23. The TCPA itself and another relevant FCC Rule, 47 U.S.C. § 227(b)(1)(B) and 47 C.F.R. § 64.1200(a)(3), respectively, provide that it is unlawful for a person to: "Initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party unless the call

...

[is specifically exempted by rule or order]."

24. The TCPA, 47 U.S.C. § 227(b)(1)(A)(iii), makes it unlawful for any person to: "make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using... an artificial or prerecorded voice... to any telephone number assigned to a... cellular telephone service..." Relevant FCC Rule 47 C.F.R. § 64.1200(a)(1)(iii) similarly prohibits persons from initiating calls to a cellular telephone using an artificial or prerecorded voice without the prior express consent of the called party. Relevant FCC Rule C.F.R. § 64.1200(a)(2) further prohibits persons from initiating or causing to be initiated calls that include or introduce an advertisement or constitute telemarketing to cellular telephones using an artificial or prerecorded voice without the prior express written consent of the called party.
25. The TCPA, 47 U.S.C. § 227(d)(3)(A) and FCC Rule, 47 C.F.R. § 64.1200(b)(1), provide in part that "all artificial or prerecorded voice telephone messages shall... at the beginning of the message, state clearly, the identity of the business, individual, or other entity that is responsible for initiating the call. If a business is responsible for initiating the call, the name under which the entity is registered to conduct business with the State Corporation Commission (or comparable regulatory authority) must be stated."
26. The TCPA itself and another relevant FCC Rule, 47 U.S.C. § 227(e)(1) and 47 C.F.R. § 64.1604(a), respectively, provide that it is unlawful for a person "with the intent to defraud, cause harm, or wrongfully obtain anything of value" to cause any caller identification service to transmit or display "misleading or inaccurate caller identification information."
27. The TCPA further provides in part:

Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive \$500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

47 U.S.C. § 227(g)(1).

28. This Court, in the exercise of its equitable jurisdiction, may award other ancillary relief to remedy injuries caused by Defendants' violations of the TCPA.

DEFENDANTS' BUSINESS PRACTICES

29. Defendants Spiller, Mears, Rising Eagle and JSquared (collectively, "Defendants") are in the business of generating and selling sales leads (i.e. prospective customers).
30. In an effort to generate sales leads, Defendants initiate millions of outbound telephone calls that deliver artificial or prerecorded voice messages ("robocalls") to residential and/or cellular telephone numbers of residents in the States of Arkansas, Indiana, Michigan, Missouri, North Carolina, Ohio, Texas and other states throughout the United States.
31. Defendants initiate calls to residential and/or cellular lines using artificial or prerecorded voices to deliver messages without the prior express consent of the called parties.
32. Defendants' robocall campaigns advertise various goods and services including healthcare products and automobile extended warranties.
33. From at least June of 2018 through early 2020, Defendants Spiller and Mears

conducted their robocall business through Defendant Rising Eagle. From January 1, 2018, to January 13, 2020, Defendants Spiller and Mears were the sole members of Rising Eagle and they directly participated in and controlled the day-to-day operations of Defendant Rising Eagle, through which they placed billions of robocalls.

34. On January 30, 2019, Defendants Spiller and Mears formed a new entity, Defendant JSquared, with Defendant Rising Eagle as the sole member. Defendants Spiller and Mears, who control the day-to-day operations of Defendant JSquared, began conducting their robocall business through JSquared, while also continuing to operate through Defendant Rising Eagle.
35. On January 13, 2020, Defendant Mears filed two certificates of amendment with the Texas Secretary of State, one for Defendant Rising Eagle and the other for Defendant JSquared. In each certificate of amendment, Defendants replaced the then-current members with Rising Eagle Capital Group Cayman, an entity formed in the Cayman Islands.
36. Defendant JSquared Telecom, LLC. is registered with the Federal Communications Commission as a provider of interconnected voice-over-internet-protocol (“VoIP”) telecommunications services. As an interconnected VoIP service provider, JSquared provides information services pursuant 47 U.S.C. § 153 of the Communications Act of 1934, as amended.
37. JSquared provides VoIP services to Defendants Rising Eagle, Spiller, and Mears through which Defendants initiate illegal robocalls described in this Complaint.
38. Defendants, in generating leads for their clients, have placed billions of abusive

robocalls to the residential and/or cellular telephone numbers of consumers nationwide, including in the states of Arkansas, Indiana, Michigan, Missouri, North Carolina, Ohio, and Texas.

39. Although Defendants are aware of the various federal and state telemarketing laws intended to protect the privacy of consumers from unwanted and harassing phone calls, Defendants willfully initiate calls to consumers in disregard for such laws.
40. Between January 1, 2019, and May 14, 2019, for example, Defendants initiated at least 136 million robocalls calls to the residential and/or cellular telephones of Texas residents. Similarly, during that same time period, Defendants initiated more than 11 million robocalls to residents of Arkansas, 25 million robocalls to residents of Indiana, 42 million robocalls to residents of Michigan, 14 million robocalls to residents of Missouri, 44 million robocalls to residents of North Carolina, and 56 million robocalls to residents of Ohio.
41. Defendants initiate telephone calls using artificial or prerecorded voices to deliver messages that fail to clearly identify, at the beginning of the message, the business, individual, or other entity responsible for initiating the call.
42. In many instances, consumers who answer calls initiated by Defendants are greeted by automated, prerecorded voice messages. For example, many of the calls Defendants initiate are related to health insurance or other health-related products. Although Defendants use many different prerecorded messages, one message used by Defendants states,

Hi, this is Ann. I am calling to let you know we have been granted a limited health enrollment period for a few weeks, so you and your family can get a great insurance

plan at the price you can afford. And we make it hassle free to sign up. We have pre-approvals ready in your area including Cigna, Blue Cross, Aetna, United and many more. Press 1 to get a hassle-free assessment or press 2 to be placed on our do not call list. Thanks for your time and be healthy and blessed.

43. In many instances, Defendants initiate calls to consumers which delivered robocalls related to extended service warranties for automobiles. One such message delivered by Defendants states,

We've been trying to reach you concerning your cars extended warranty. You should have received something in the mail about your cars extended warranty since we have not gotten a response. We are giving you a final courtesy call before we close out your file. Press two to be removed and put on our do not call list press one to speak with someone about possibly extending or reinstating your cars warranty. Again, press one to speak with a warranty specialist.

44. In many instances, Defendants initiate outbound telephone solicitations to telephone numbers registered on the National Do Not Call Registry or to telephone numbers registered on state-specific do-not-call registries, including those for the States of Indiana, Missouri, and Texas.
45. In 2019, Defendants initiated a little over 66 million robocalls to residential and/or cellular telephone numbers associated with North Carolina area codes, and more than 32 million of those calls were placed to telephone numbers on the National Do Not Call Registry. And in the first three months of 2020, Defendants initiated a little over 9 million robocalls to residential and/or cellular telephone numbers associated with North Carolina area codes, more than 2 million of which were on the Registry.
46. Between January and May of 2019, Defendants initiated over 56 million robocalls

to residential and/or cellular telephone numbers associated with Ohio area codes. Of those 56 million robocalls, over 30 million were placed to telephone numbers on the National Do Not Call Registry. In March of 2020, Defendants initiated over 3 million robocalls to residential and/or cellular telephone numbers associated with Ohio area codes. Of those calls, over 1 million were placed to numbers on the Registry.

47. Between January and May of 2019, Defendants initiated over 42 million robocalls to residential and/or cellular telephone numbers associated with Michigan area codes. Of those 42 million robocalls, over 19 million were placed to telephone numbers on the National Do Not Call Registry.
48. Similarly, of the more than 25 million robocalls Defendants initiated to telephone numbers associated with Indiana area codes between January 1, 2019, and May 14, 2019, over 13.5 million were to numbers on the National Do Not Call Registry, and more than 5 million were to numbers on the Indiana Do Not Call Registry. Likewise, between January and April of 2019, Defendants initiated more than 5 million robocalls to telephone numbers on the Missouri Do Not Call Registry. And of the more than 136 million robocalls Defendants initiated to residential and/or cellular telephone numbers associated with Texas area codes, more than 57 million of them were to numbers on the National Do Not Call Registry. During a seven-day period in March of this year, Defendants initiated a little over 5 million robocalls to residential and/or cellular telephone numbers associated with Texas area codes, nearly one million of which were to numbers on the National Do Not Call Registry.
49. In order to continue to perpetuate their illegal conduct, Defendants take and/or took steps to avoid being identified, including failing to transmit accurate caller

identification information. For example, Defendants often engaged in the practice of “spoofing,” whereby they knowingly transmitted misleading or inaccurate telephone numbers through the caller identification service.

50. Defendants often replaced their actual number with a number with the same area code and prefix of the call recipient to mislead the recipient into believing the call is coming from someone local and known to the recipient. This practice is typically referred to as neighborhood spoofing.
51. Defendants further attempt to conceal their identities by delivering robocalls that fail to identify Defendants or their clients.

COUNT VIII

(By the State of Indiana – Violating the Telephone Solicitation of Consumers Act (the "TSCA"), Ind. Code 24-4.7-4)

72. Pursuant to Ind. Code § 24-4.7-3-1, the Office of the Attorney General quarterly publishes a no telephone sales solicitation listing ("Indiana's Do Not Call List"). Consumers place their telephone numbers on Indiana's Do Not Call List when they do not want to receive telephone calls soliciting the sale of a consumer good or service, as defined in Ind. Code § 24-4.7-2-3. The telephone calls described above were "telephone sales calls" because they were made to

solicit the sale of a consumer good or service or to obtain information to be used to solicit the sale of a consumer good or service including, without limitation, insurance or auto warranties.

73. By making or causing to be made telephone sales calls to consumers residing in Indiana, Defendants are “doing business in Indiana,” as defined by Ind. Code § 24-4.7-2-5(a), regardless of where the telephone calls originate or where Defendants are located. By controlling, directly or indirectly, one or more persons who made or caused others to make telephone calls to consumers located in Indiana, the persons are “doing business in Indiana,” as defined by Ind.
